Jul 2021 - Present

TECHNICAL CONSULTANT

Salesforce, Toronto (Remote)

Engagement 1 - Client 1 - Salesforce Developer

Client engagement required **integrating Experience Cloud with three different 3rd party tools using MuleSoft** as middle-ware to allow end-users to upload **files** to an external service and read and update data in another external service.

During his assignment, Mr. Nahhal developed several **custom Lightning Web components that interact with MuleSoft APIs through Apex and exposed them to two Experience Cloud sites.** Moreover, Mr. Nahhal customized the Salesforce org to add new fields and processes based on business and stakeholder requirements.

On top of his duties as a developer, Mr. Nahhal **supported the MuleSoft Architect** by providing a Goggle sheet that lists a breakdown of fields' labels and API names and provided SOQL queries for data integration and loads.

Engagement 2 - Client 1 - Salesforce Developer and Release Manager

Client engagement required changes to the Service Cloud functionality, and one of the main requirements was to create records related to Accounts if a business criterion is met. Mr. Nahhal built the process using Batch Apex and a custom runner that handled creating and updating large data volume (300k+ Account records).

Engagement 3 - Client 1 - Salesforce Developer and Release Manager
Client engagement required changes to Service and Experience Cloud
functionality and the integrations with the 3rd party tools. Mr. Nahhal interacted
with the 3rd party vendor's professional services team to build, collaborate and
test inbound and outbound integrations with Experience Cloud, as well as
working with the MuleSoft Architect to **optimize and resolve inbound integrations**.

As part of the engagement, Mr. Nahhal built a **close rapport with the client's VPs** of Technology and Distribution; he also supported the client's Data Engineer with data loads into Salesforce and ran 2 weeks of **training** sessions for the client's SME on Service Cloud.

Extracurricular Activities

- Mr. Nahhal is an active member of Salesforce's Professional Services global standardization team responsible for reviewing, contributing and maintaining the internal development standards.
- Mr. Nahhal is an active contributor to 3 different Slack question and answer channels used by Consultants and Architects.

Aug 2020 - Jun 2021

FULL STACK SALESFORCE DEVELOPER

EcoVadis, Toronto (Remote)

- Designed, built and maintained a survey-like tool on top of Sales Cloud, used by Success Managers, that includes 5 levels of parent-child relationships to store data, externally exposed it using Apex Web Service and a web-app, secured it using JWT, and visualized it's results with interactive Chart.js graphs in a custom Lightning Web component.
- Increased users' productivity by automating business processes using
 Lightning Process Builder, Flows, Apex Trigger and other automation tools.
- Improved data quality by implementing Validation Rules and Apex Triggers and unit tested them with at least 90% code coverage.
- Helped derive business decisions by building Reports, Dashboards,
 Custom Report Types, and custom formulas.
- Mentored and supported team members by providing guidance and detailed steps on how to achieve the desired outcome.
- Identified gaps, areas for improvement and performance optimization with action items following **best practices**.
- Lead technical and solution designs then discusses them with stakeholders and/or the enterprise architect to validate requirements and approaches.
- Initiated a weekly 15 minutes Lightning Talks to share Salesforce
 knowledge, best practices or interesting features we learned about, and also created a Chatter group to publish releases and release notes.
- Lead agile transformation by introducing change management and processes, administered sprints, sprint planning, retrospectives, stand-ups, and then built CI/CD between sandboxes and Production org using Azure DevOps Repos, Pipelines and SFDX.
- Administered the org by importing and cleansing records using Data Loader or Data Import Wizard, identifying and giving the right user/object/field permissions, creating new users and other administrative tasks.
- **Trained** internal users on how to use Sales Cloud standard and custom features, and external consultant on how to use **Azure DevOps** and **SFDX**.
- Researched, planned and offered to lead an org spit project, inclusive of metadata and data migration, and a rollout strategy.

Nov 2017 – Apr 2020

APPLICATION DEVELOPER

NexJ Systems, Toronto

- Implemented features and fixed bugs using Scheme and JavaScript for NexJ's Customer Process Management System (CPM) based on Stakeholders' requirements.
- Integrated CPM with both NexJ's Enterprise Customer Relationship Management (CRM) and CRM for Wealth Management.
- Wrote unit tests to maintain quality and eliminate regressions.
- Helped Professional Services customize CPM to improve and enforce compliance based on clients' requirements.

	 Developed Progress Calculation with an intuitive UI to improve User Experience and increase Financial Advisors' productivity. Performed code reviews and took initiative to develop coding standards to maintain code base quality and increase readability. Administered our teams' Scrum and it's processes. Documented features and bugs internally for each release to increase knowledge transfer. Integrated CPM with Salesforce's Sales Cloud by building REST APIs using Node.js that pushes data to Heroku's PostgreSQL database, then retrieved them in Sales Cloud using Salesforce Connect. (Hackathon) 	
Mar 2017 – Aug 2017	 FULL STACK DEVELOPER Whut Inc (Contract), Toronto Fixed Whut's Content Management System (CMS) bugs. Integrated Whut's CMS with Salesforce's Sales Cloud. Built a PDF viewer using Mozilla's PDFJS in Angular2 and Ionic2. 	
Jan 2016 - Apr 2016 E D U C A TI O N	APPLICATION DEVELOPER Blackberry (Co-op), Waterloo • Analyzed, optimized and scheduled Oracle PL/SQL stored procedures.	
May 2015 – Aug 2016	MOBILE SOLUTIONS DEVELOPMENT (OCGC WITH CO-OP) Conestoga College, Kitchener, Canada • GPA: 3.93/4 • Capstone project: Receipt Keeper, a mobile and Web app that uses Tesseract OCR to extract then persist and sync data from a receipt.	
Sep 2010 – Jun 2014	BSC IN COMPUTER SCIENCE Beirut Arab University, Beirut, Lebanon • ABET accredited • Senior project: PocketShop, a C2C eCommerce app built for Android devices.
